**OCEANIC TIME WARNER CABLE TO LAUNCH ROAD RUNNER MOBILE
4G SERVICE ON JANUARY 4, 2010**

Mililani, HI (December 21, 2009) – Providing customers with a mobile high-speed data service with access to the fastest wireless data speeds available, Oceanic Time Warner Cable will launch on its new 4G Mobile network, Road Runner Mobile™, on Monday, Jan. 4, 2010. The new service will be available in most areas on Oahu and Maui and is the first in a line of mobile broadband services set to roll out in 2010 and beyond.

Road Runner Mobile™ will offer customers a superior, high-speed, media-rich broadband experience away from their home or office by simply plugging a Road Runner Mobile device into their computers. Road Runner Mobile includes all the same features as Road Runner High Speed Online including a full security suite, e-mail, data storage, Photoshow, and the Road Runner portal.

“Offering the convenience of virtual mobility and speed, Road Runner Mobile will allow our subscribers to take their Road Runner experience to more locations outside the home or office,” said Oceanic President Nate Smith. “What’s more, we’ll be adding other innovations in 2010 and beyond that will add to the overall experience such as being able to remotely program a DVR using the mobile device.”

Road Runner Mobile will launch with the following service plans for which contracts are not required:

- **4G National Elite** – Unlimited access to 4G Mobile and 3G National networks locally and nationally starting from as low as \$56.95 per month for current Road Runner High Speed Online subscribers. Customers will receive \$100 off the

\$200 4G National Elite device with a two-year contract. In addition, nationwide customers will receive a \$100 rebate for their old wireless cards or devices.

- **4G Elite** – Unlimited access to 4G Mobile throughout Oahu, Maui and selected Mainland cities for as low as \$39.95 per month for existing Road Runner High Speed Online subscribers. The \$100 device fee will be waived with a two-year contract.
- **4G Choice** – 4G Mobile includes 2 gigabytes per month for \$34.95 per month and \$0.05 per MB for additional usage. The \$100 device fee will be waived with a two-year contract.

The Road Runner Mobile service offers a wealth of benefits for new and existing customers by allowing users to take their Internet service anywhere they go. Whether sending e-mails while in transit or quickly downloading a business report at the beach or sharing files with a colleague at the park, Road Runner Mobile customers can take advantage of this new 4G service anytime and anywhere.

Road Runner Mobile will download up to 6 Mbps—and up to 1 Mbps for uploads on Time Warner Cable's 4G Mobile network, which will make it the fastest mobile network available. For more information about Road Runner Mobile, visit <http://rrmobile.oceanic.com/>.

Oceanic currently delivers a diverse selection of entertainment and information services by way of an advanced fiber optic/coax network to more than 400,000 households, schools and businesses on Oahu, Maui, Kauai, Molokai, Lanai and the Big Island. Among its products are Road Runner high-speed Internet as well as Digital Phone services. The company has provided quality cable service for Hawaii residents since 1969. Oceanic's parent company, Time Warner Cable, is a major developer of entertainment and information content operating in 27 states across the United States.
