OCEANIC TIME WARNER CABLE GIVES POWERBOOST TO ROAD RUNNER TURBO

Mililani, HI (October 7, 2009) – Oceanic Time Warner Cable is giving a PowerBoost to Road Runner Turbo customers. The new feature, which is no additional cost to Road Runner Turbo customers, temporarily provides download speeds significantly faster than their current speed of 8 Mbps. With PowerBoost, speeds up to 14 Mbps can be achieved while downloading large files from the Internet when network capacity is available.

“We are excited to be delivering this free time-saving feature to our Road Runner Turbo customers,” said Vice-President of Marketing, Alan Pollock. “PowerBoost will jumpstart a large file download, reducing the wait time to enjoy the multitude of media available online.”

Offering a short burst of speed, PowerBoost leverages extra capacity that is available in the Oceanic’s advanced network, which was designed to provide high-speed Internet service even when usage levels are at its peak. The PowerBoost technology allows users to take advantage of the extra bandwidth when it is available. Once a PowerBoost is completed, a download in progress will continue at the normal provisioned speed.

Oceanic is currently making upgrades to its plant that will increase the speed of Road Runner to 10 Mbps, providing even more capacity for the PowerBoost experience. These facility upgrades are expected to be complete in late 2010.

Oceanic currently delivers a diverse selection of entertainment and information services by way of an advanced fiber optic/coax network to more than 400,000 households, schools and businesses on Oahu, Maui, Kauai, Molokai, Lanai and the Big Island. Among its products are Road Runner high-speed Internet as well as Digital Phone services. The company has provided quality cable service for Hawaii residents since 1969. Oceanic's parent company, Time Warner Cable, is a major developer of entertainment and information content operating in 27 states across the United States. For more information, call (808) 643-2337 or visit www.oceanic.com.
