**OCEANIC TIME WARNER CABLE EXTENDS POWERBOOST  
TO ALL ROAD RUNNER CUSTOMERS**

Mililani, HI (January 4, 2010) – Oceanic Time Warner Cable has expanded its PowerBoost feature to all Road Runner customers, providing download speed bursts significantly faster than their current speed. There is no additional cost for the new feature.

“We are excited to offer yet another reason to get Road Runner with this free time-saving feature,” said Vice-President of Marketing, Alan Pollock. “PowerBoost will jumpstart a large file download, reducing the wait time to enjoy the multitude of media available online.”

Offering a short burst of speed, PowerBoost leverages available capacity in the Oceanic’s advanced network, which was designed to provide high-speed Internet service even when usage levels are at its peak. The PowerBoost technology allows users to take advantage of the additional bandwidth when it is available.

Oceanic currently delivers a diverse selection of entertainment and information services by way of an advanced fiber optic/coax network to more than 400,000 households, schools and businesses on Oahu, Maui, Kauai, Molokai, Lanai and the Big Island. Among its products are Road Runner high-speed Internet as well as Digital Phone services. The company has provided quality cable service for Hawaii residents since 1969. Oceanic’s parent company, Time Warner Cable, is a major developer of entertainment and information content operating in 27 states across the United States. For more information, call (808) 643-2337 or visit [www.oceanic.com](http://www.oceanic.com).
