**OCEANIC TIME WARNER CABLE IS GOING MOBILE
Announcing Early 2010 Launch of Time Warner Cable 4G**

NEW YORK, NY – September 9, 2009 – Time Warner Cable, Inc., (NYSE: TWC) today announced that it will launch Time Warner Cable 4G Mobile network products early next year in Honolulu and Maui, Hawaii. Offered by Oceanic Time Warner Cable, the first Mobile Broadband offering will be Road Runner Mobile™, a wireless high-speed data service providing customers access to the fastest wireless data speeds available.

“We are excited to be bringing our customers the ability to take their Road Runner experience to more locations outside the home, adding the convenience of virtual mobility and speed with Road Runner Mobile,” said Oceanic President Nate Smith.

Road Runner Mobile™ will offer customers a superior, high-speed, media-rich broadband experience away from their home or office. It will also bring customers the added convenience of a single bill for their video, voice, data and mobile data services. Time Warner Cable plans to launch additional innovative services in the future that will converge its advanced fiber network and its 4G Mobile network. Oceanic will release more details regarding its wireless products and services as it moves closer to launch early next year.

The launch of Oceanic’s Time Warner Cable 4G Mobile network products comes on the heels of the company’s announcement earlier this year that it will upgrade its infrastructure to introduce Internet speeds that are twice as fast as its current Standard Road Runner and Road Runner Turbo speeds. Facility upgrades are currently underway, with expected completion slated for late 2010.

About Oceanic Time Warner Cable

Oceanic currently delivers a diverse selection of entertainment and information services by way of an advanced fiber optic/coax network to more than 400,000 households, schools and businesses on Oahu, Maui, Kauai, Molokai, Lanai and the Big Island. Among its products are Road Runner high-speed Internet as well as Digital Phone services. The company has provided quality cable service for Hawaii residents since 1969. Oceanic Time Warner Cable is the thirteenth largest system in the U.S. and its parent company, Time Warner Entertainment, LLP, is a major developer of entertainment and information content. For more information, call (808) 643-2337 or visit www.oceanic.com.

About Time Warner Cable

Time Warner Cable is the second-largest cable operator in the U.S., with technologically advanced, well-clustered systems located in five geographic areas — New York State (including New York City), the Carolinas, Ohio, southern California (including Los Angeles) and Texas. Time Warner Cable serves more than 14 million customers who subscribe to one or more of its video, high-speed data and voice services. Time Warner Cable Business Class offers a suite of phone, Internet, Ethernet and cable television services to businesses of all sizes.
